FYI – This briefing specifically singled out the import authorization, inspections of their facilities, and a permit review. See slides 21 and 33.

HQs just briefed Susan Bodine and is exploring multi-regional, multi-media (CWA, SDWA, TSCA and RCRA) action against Chemours.

HQs has scheduled a call with Reg 4 for next Tuesday, Sept 18 at 4 pm. Air, Water and RCRA programs were invited and were Leif, Suzanne, Valerie and Marlene. I've forwarded the meeting invite to Mita, Paul and Joan.

And I reserved the MP room – not sure if the program will be gathering in one room or not.
